One of the main objectives of this study is to see how often new residents to the United States move and to see how easy or difficult it is to stay in touch with them over time.

The study requires that we call you again in 3-6 months and again in 12 months to ask you a few more questions. Each time we call you we will only take 10-15 minutes of your time, and we will send you a check for \$5.00 to thank you for your participation.

Because of the length of time in between each interview, we need to collect some information that will make it easier for an interviewer to reach you when it is time to do the next interview. It is very important that we know where we may contact you the next time. I'd like to start by asking you about your current plans.
