¹ Due to the requirements of the program used to create the codebook, some variables follow a different naming convention in the codebook and data files. Variables in the questionnaire and data files in the form varname_x, where x=1, 2, 3, etc., have the form varname.0x where x=1,2,3, etc. in the codebook. Similarly, variables in the form varname_xmo and varname_xnu in the data files have the form varnamemo.0x and varnamenu.0x, respectively, in the codebook.

Descriptive statistics were automatically generated for those variables with amounts. Several questions collect information about amounts in different units, periods of time, currencies, etc. Descriptive statistics for these variables won't provide a good description of the data and further calculations will be needed.
