<sup>1</sup> Due to the requirements of the program used to create the codebook, some variables follow a different naming convention in the codebook and data files. Variables in the questionnaire and data files in the form varname\_x, where x=1, 2, 3, etc., have the form varname.0x where x=1,2,3, etc. in the codebook. Similarly, variables in the form varname\_xmo and varname\_xnu in the data files have the form varnamemo.0x and varnamenu.0x, respectively, in the codebook.

Descriptive statistics were automatically generated for those variables with amounts. Several questions collect information about amounts in different units, periods of time, currencies, etc. Descriptive statistics for these variables won't provide a good description of the data and further calculations will be needed.

PLANS TO MOVE NEXT 12 MONTHS

One of the main objectives of this study is to see how often new residents to the United States move and to see how easy or difficult it is to stay in touch with them over time. The study requires that we talk to {CP: namefill sampled child from preload firstnam} {IM, OS: you} again in 12 months to ask (CP:

him/her/him or her) (IM, OS: you) a few more questions. Because of the length of time in between each interview, we need to collect some information that will make it easier for an interviewer to reach (CP: him/her/him or her) (IM, OS: you) when it is time to do the next interview. It is very important that we know where we may contact (CP: him/her/him or her) (IM, OS: you) the next time. I'd like to start by asking you about (IMS, OS: your) (CP: your child?s) current plans. INTERVIEWER: IF NECESSARY, REASSURE THE R OF THE CONFIDENTIALITY OF THE INFORMATION HE/SHE PROVIDES. {CP: Do you think that {namefill sampled child from preload firstnam} will be moving} {IM, OS: Do you have any plans to move} to another residence during the next 12 months??
